Do you think
an apple a day
"keeps the doctor away"?

What does that saying
really mean?

Would you rather:

red,
yellow
OR
green apple?

What's your favorite
apple variety?

Fueling Georgia's Future

Did you know
apples grow in
almost every state?

Where do you think
they grow best
in Georgia?

Fueling Georgia's Future

Apple flesh turns brown
soon after it exposed.
This brown color does
not reflect nutrient status
but instead happens due
to exposure to oxygen.

What are some ways to
prevent this browning?

Do you know how
apples grow?

Apples grow on a
tree and will start falling
from the tree when
it is time to pick them.
