

Peaches fall into
2 main categories:
“freestone”
and
“clingstone”.

What do you
think that means?

**Would you
rather:**

Eat a peach
like an apple

OR

Slice a peach
and eat it

?

Georgia
is known as
the Peach State.

Does this make
you proud?

Did you know
that the
fuzz on peaches
serves a purpose?

Why do you think
peaches are fuzzy?

Do you
eat peaches
with the skin
on or off?

The skin provides
both texture and
added nutrients.

Do you know
how peaches grow?

Peaches grow
on a tree and will
continue to ripen
after they are picked.
