?

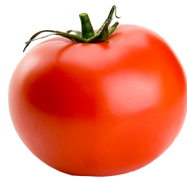

Tomatoes are one of the top 10 vegetables produced in Georgia.

Have you ever grown a tomato or eaten a freshly picked one? How did it taste?

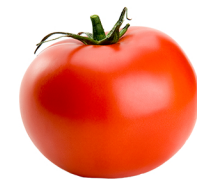

Did you know tomatoes come in many sizes and colors?

Which ones have you tried?

Tomatoes are often thought of as a vegetable from a nutrition perspective but as a fruit botanically.

Do you have any guesses why?

Do you know how tomatoes grow?

Tomatoes grow on a plant above the ground that often needs support. Have you seen tomato plants supported by things in the garden?
