What is the Seamless Summer Option?

The SSO is a federally-funded, state-administered program. The SSO reimburses providers who serve healthy meals at no cost to children 18 and younger in low-income areas during the summer months when school is not in session. Contact your district School Nutrition Director for details.

Number of Serving Sites:

A Seamless Summer Option serving site is the physical location (site) summer meals are served through the federally-funded, state-administered program. The site locations are determined by the local School Food Authority (SFA).
